Let's discuss this, including my recusal, before ORD makes any further plans.

Subject: HSST Request for IRIS Update Briefing

Hey Jennifer and David – House Science majority would like a briefing on the status of the formaldehyde assessment and on the IRIS Handbook. They'd also like an update on the status of ongoing assessments and how the shutdown may have impacted their projected dates for the "Next Anticipated Public Step(s)."

Shall I gather the usual suspects (Tina, Kris, Samantha J) and see what times work for them that also work for you two? OCIR suggested the week of Feb 19. Note that HSST would like the briefing to be in person.

Subject: Requesting an IRIS Update Briefing

Hi Christina,

We wanted to set up a staff level briefing on the IRIS program. I saw the IRIS program update prior to the shutdown and noticed that there was no information on the status of the formaldehyde review or when the IRIS Handbook would be published. As such, we would like to get an update on the status of these two items, as well as an update on the status of ongoing assessments and how the shutdown may have impacted their projected dates for the "Next Anticipated Public Step(s)." Can you please let us know some times next week or later this month that IRIS and NCEA staff would be available to brief us in person in DC?

Thanks,
Priyanka
